

Discovering Sokolovsko I

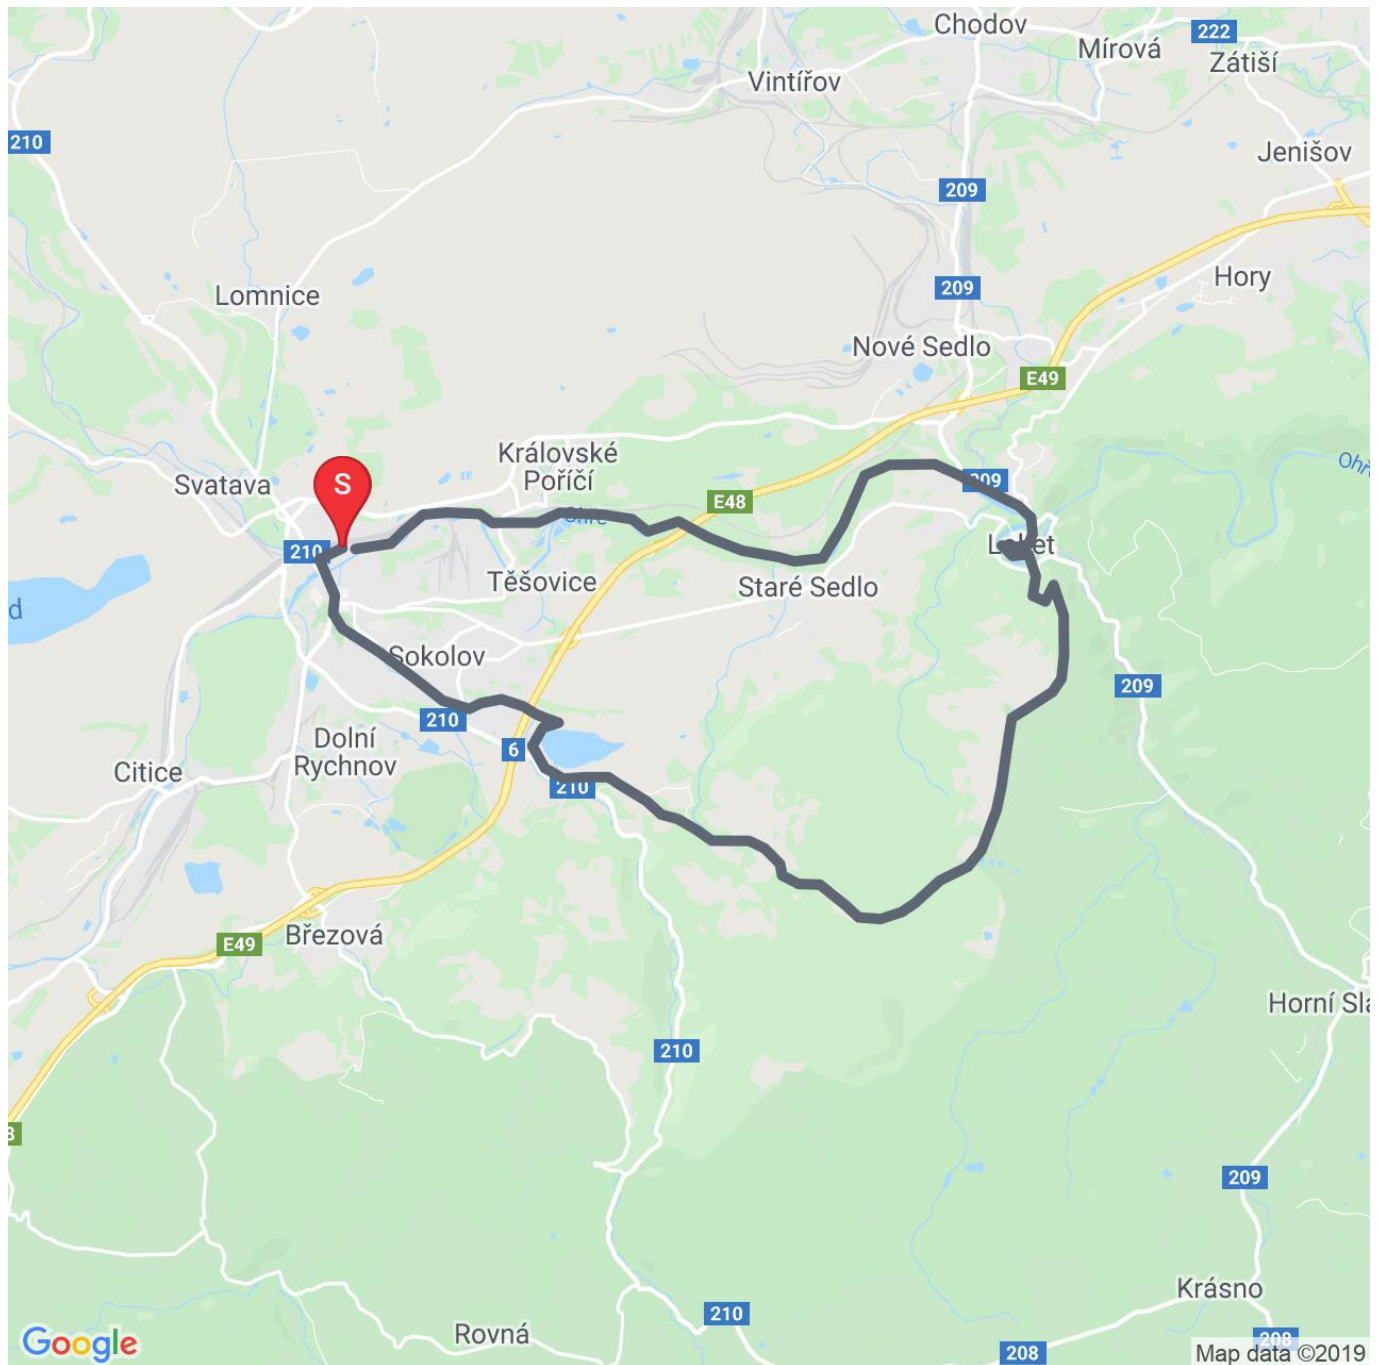

Route description

A circuit through Slavkovský Forest through the Ohře River Valley on foot!

Embark on a 27-kilometre hiking trail from Sokolov. In Sokolov you have the option of visiting a museum, château, or the swimming pool. Continue through the towns of Hrušková, Nadlesí, and Dvory, from which there is a gorgeous view of the panoramas of the Krušné Mountains. When you arrive in Locket, do not miss out on a tour of the city's urban conservation area, the former medieval castle linked to the youth of Prince Václav IV, the amphitheatre, or the ropes park. Between Staré Sedlo and Královský Poříčí lies a rare natural monument - the Tertiary sediments of the Sokolov Basin and the remnants of Tertiary subtropical vegetation with pseudokarst caves.
