

# Bike park Ještěd

## Resort description

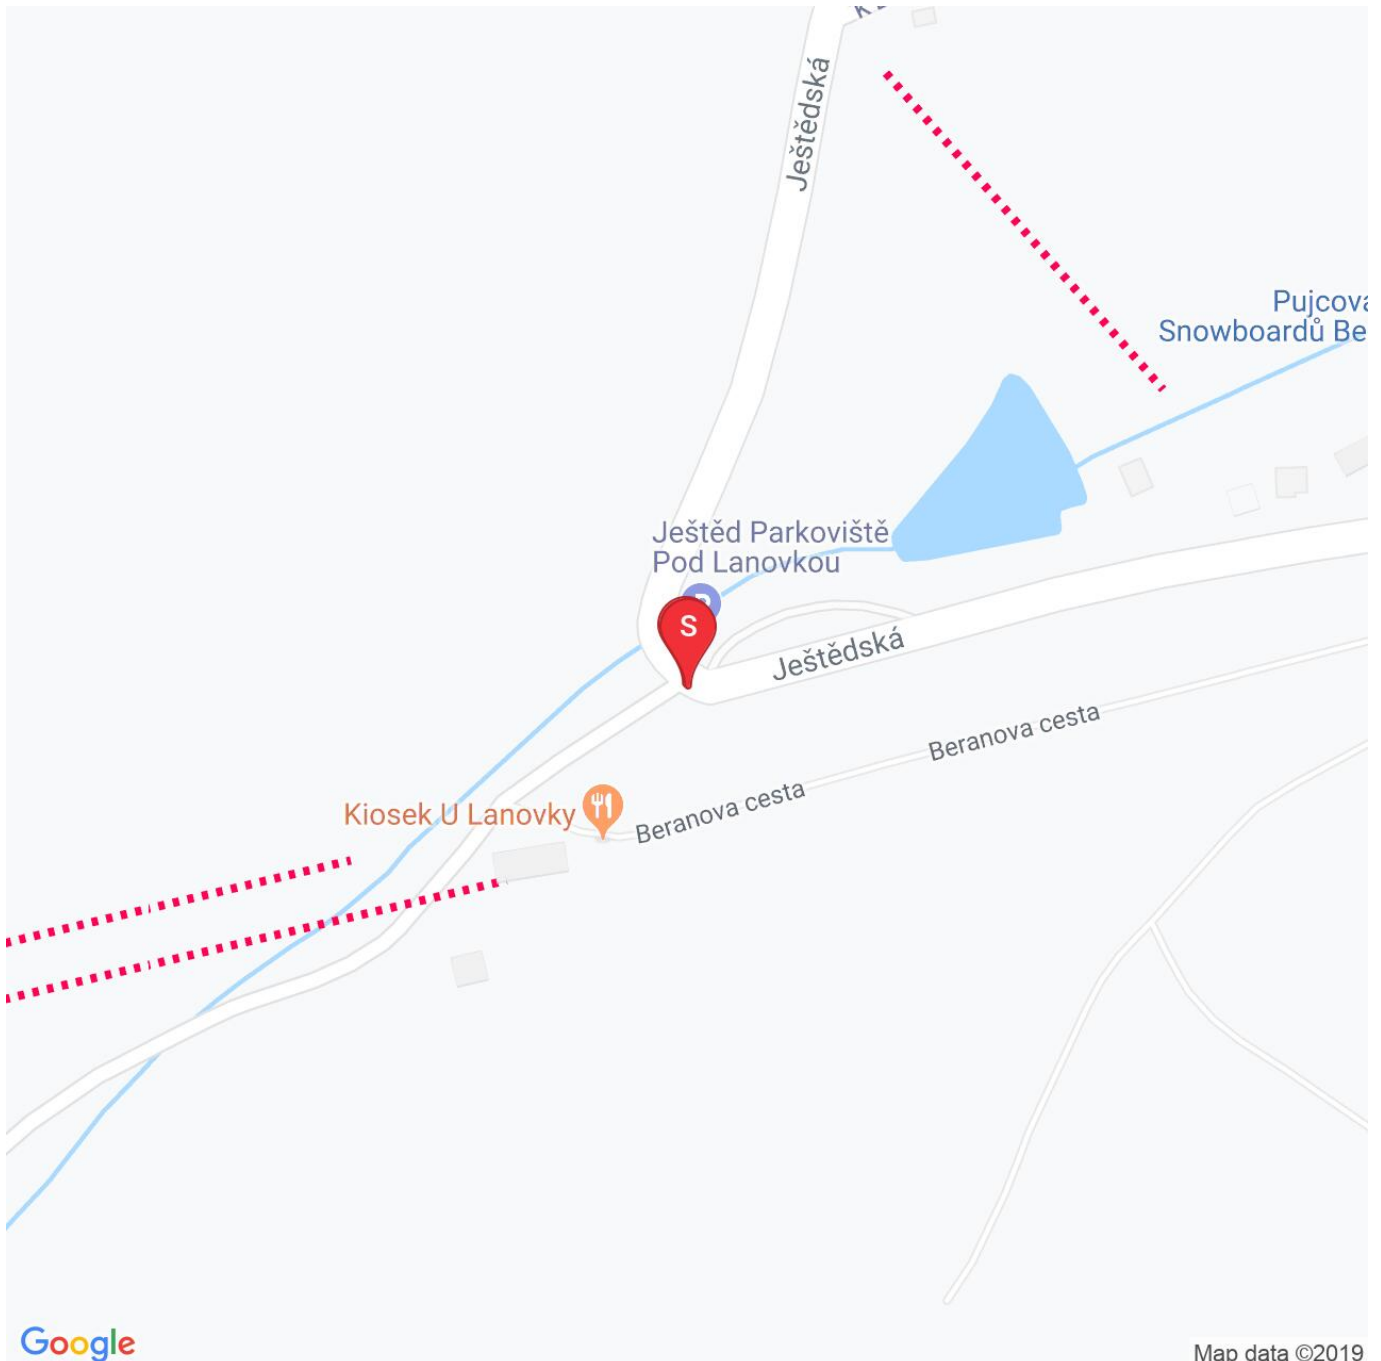

Directly in the vicinity of Liberec, at place where one of the local trams takes you, a bike run finishes at the lower platform of the Skalka chairlift.

Above you in the deep, beautiful forests is Ještěd Bike Park, mainly a downhill area with a long history (even a racing history). On the La Spaghetta line you will enjoy countless banked turns, technical sections, jumps, but also views of Liberec and its surroundings. The El Masacre Downhill is a perfect ski slope for you prepared with many rocks and roots and the Turistika Trail is a mix of smooth terrain, fun banked turns and bumps in an untouched forest. The Ještěd Freeride Team is still working on modifications, track development and other interesting diversifications, such as a pumptrack at the bottom of the chairlift. The park operators also did not forget the availability of renting bikes and scooters and getting snacks after an epic ride.

Destinations	North Bohemia
Route	0 km   3 hours

Surface	Trails La Spaghetta (B1) - a medium difficult freeride track with everything: lots of laps, jumps, several wooden obstacles and challenging terrain. Turistika (B2) - a easy trail along the forest road, where banked turns, small jumps and bumps are built; everything can be done and combned as you wish and if you want, you can ride around the obstacles if they are too difficult for you. El Masacre Downhill (B3) - a difficult downhill track that you can connect to after a ride on the 'spaghetti' B1; the pure downhill passages are full of roots and stones; it is a very technical track for full-suspension/long travel bikes and more experienced riders.
Activity type	Singletrack
