

# Trail Park Klínovec

## Resort description

In the Krušné hory (Ore Mountains), bike parks and trail centers are hard to come by, but there is an exception, the excellent Trail Park Klínovec.

Extending along the southern and southwestern slopes of the mountains, it is located about 20 minutes by car from Karlový Vary. The opportunities offered by the Krušné hory mountains richly make up for the aforementioned lack of bike parks. Previously, Klínovec was mainly for downhillers, but today it is suitable for the whole family. Trail Park Klínovec enters its second season this year, during which all 24 km of firm-packed flowtrails with three levels of difficulty will be put into operation, accompanied by a beautiful, tranquil countryside. There are some beautiful views of the landscape in the direction towards the adjacent town of Jáchymov. For fans of a more adrenaline experience, there is still a downhill track that underwent a complete reconstruction in 2016. This year, several new passages will be added. However, Trail Park Klínovec offers other possibilities that should not be missed- the complex is completely equipped, there is a pumptrack as well as a skill center. In addition, there are five XC circuits of varying intensity and difficulty with a total length of 67 km.

Destinations	West Bohemia
Route	26.4 km   3 hours

Surface	Downhill Klínovec - 3 km, difficult; a downhill track with many banked turns and several jumps, demanding passages suitable for more capable riders with a full-suspension bike with at least 160mm travel/suspension. Azur - 10.3 km, easy; easy-to-handle groomed trails with a solid foundation suitable for the whole family, running down a gentle slope where there is no need to brake too much. Rubin - 8 km, medium difficult; groomed rolling trails that can be ridden by the whole family, but they will also be appreciated by an experienced rider when he finds his rhythm. The firm base of the trail drains away water well just like the Azur trail. Baron - 5.1 km
Activity type	Singletrack
