

# Ski resort Plešivec

## Resort description

One of the newest ski resorts in the Czech republic is situated only 16 km from the well-know spa Karlovy Vary (Carlsbad). This modern resort is located near Abertamy, in the Ore mountains. It has a wide range of skiing slopes for beginners, families with children, and advanced skiers as well.

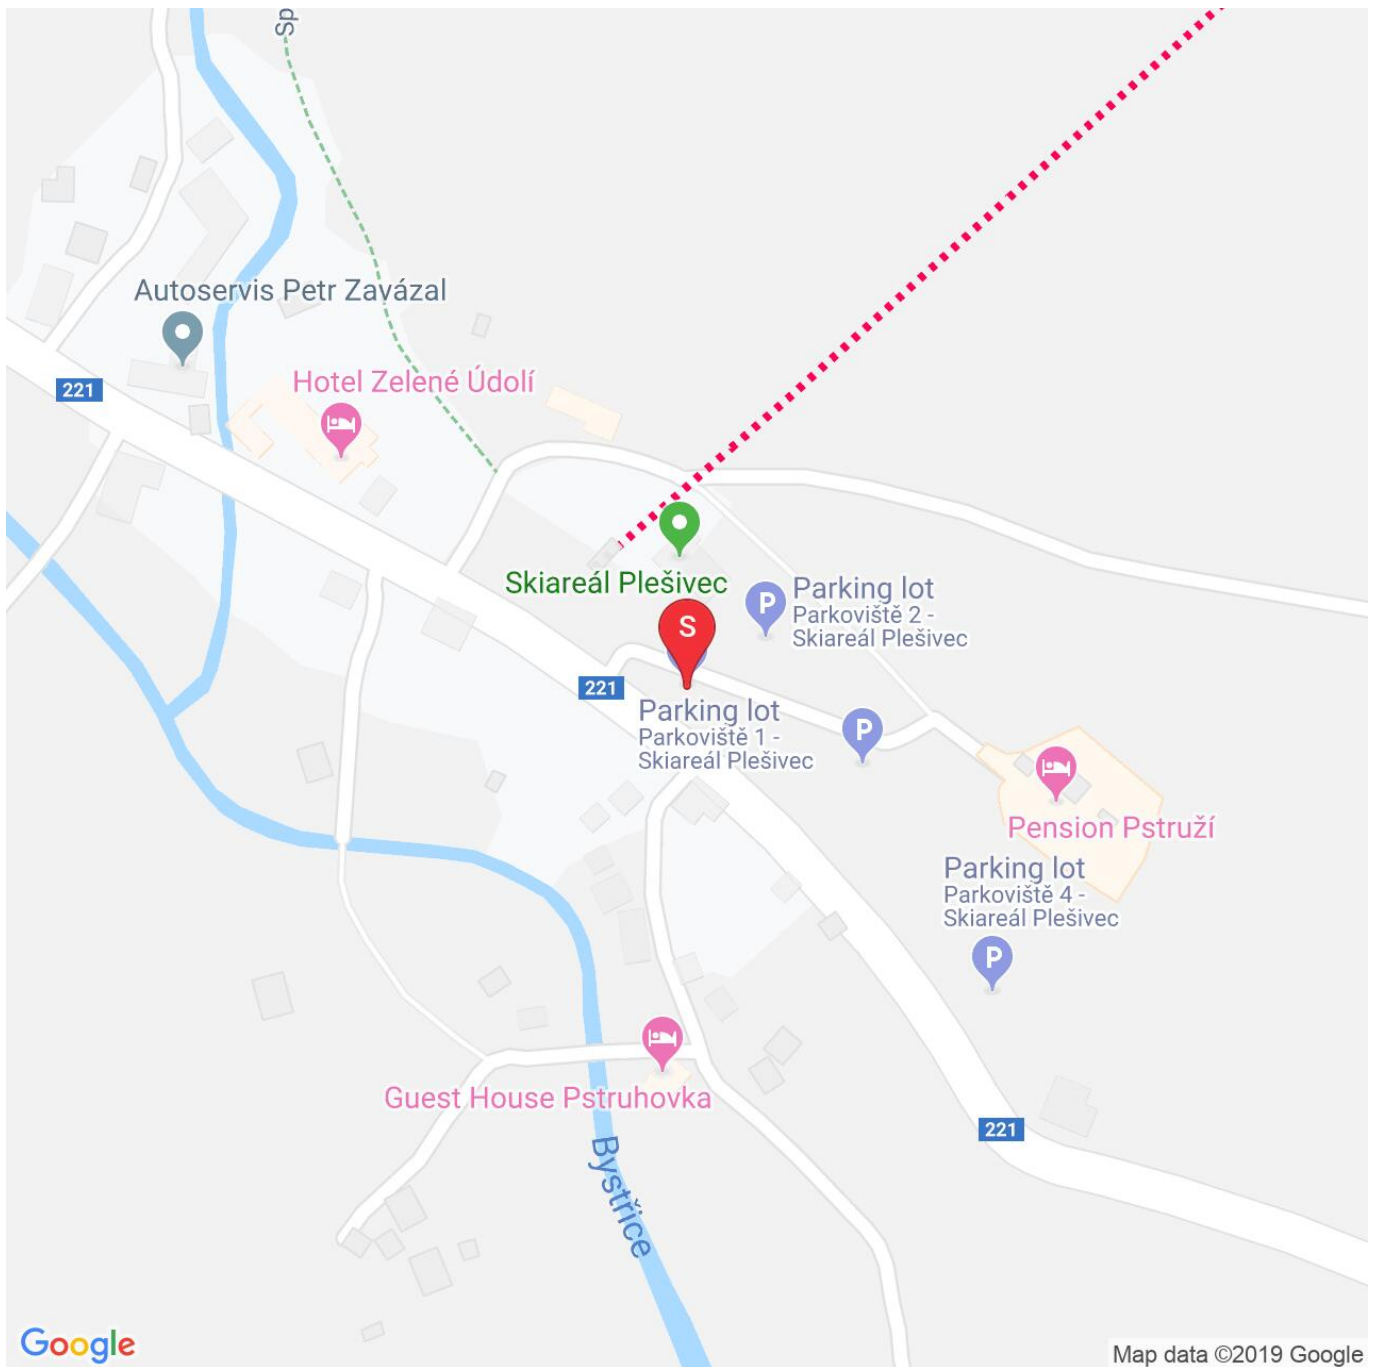

The ski resort offers 9 slopes, 12 km of total length. All slopes are covered with artificial snow in winter, wide enough and professionally maintained on regular basis. You will find here 5 blue-marked hills, 2 red-marked slopes for intermediate skiers and 2 black-marked tracks for advanced skiers and snowboarders. Local snowpark for children is equipped with 4 moving lines, a carousel, a tunnel, animal figures and other fun things for entertainment.

As a matter of course, there is a possibility of evening skiing at illuminated slopes. Transport of skiers is provided by 3 comfortable four-seat ski lifts and 2 tow lifts. Visitors can use two big parking lots (free of charge), sports equipment rental shops, Atomic and Salomon testing center, a ski school and a professional ski service shop. Right at the top of Plešivec there is a historical lookout tower, a mountain-style restaurant and a hotel. In close proximity, there is a new modern hotel Orion with wellness and a top-rated restaurant. Other snack bars and restaurants are near all skiing slopes.

Destinations	West Bohemia
Route	0 km   8 hours
Surface	

Activity type Downhill skiing
